

What's New?

(v 6.0)

February 2018

- Gaaaaaame mode!!! Ready to make quizzes more fun? Check out the new game mode quiz type, where students can compete on teams in a tug-of-war battle between rovers! When ready to give a quiz, simply choose "Game Mode" to launch into that version.

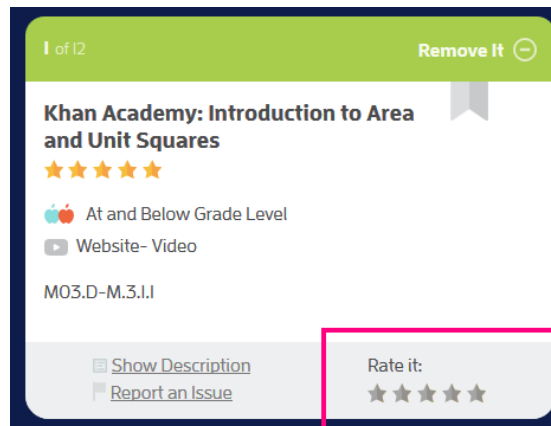

This quiz is:

A screenshot showing three selectable options for quiz modes. Each option is in a light blue box with a dark blue header and a grey description below. A red arrow points to the 'Game Mode' option.

Self-guided	Students work at their own pace.
Teacher-led	Teacher advances each question manually.
Game Mode	Students in 2 teams compete.

- Resource ratings needed! We would love your help with this one ☺ Teachers always had the ability to rate resources in our resource bank. Now you can rate them while building a quiz too! When you are adding resources to a quiz you are building, you will now see the option to rate them right there. We encourage you to rate resources as you send them out, because that will help to refine our algorithms and make Kandoolu better for everyone!

A screenshot of a resource card for 'Khan Academy: Introduction to Area and Unit Squares'. The card includes a title, a star rating, an Apple logo, a video icon, and a code. At the bottom, there are links for 'Show Description' and 'Report an Issue', and a 'Rate it:' section with five stars. A red box highlights the 'Rate it:' section.
