

What's New?

October 2016

- For Teachers
 - A quiz can be started as teacher-led and then be converted to/finished as a self-guided quiz
 - Start and end times of self-guided quizzes can be changed
 - When searching for students on the students page, the search box now searches on username as well as first and last name
 - When you are on a quiz results screen (for students or teachers), there will now be a new link that takes you to resources or back to quizzes
 - The ability has been added to filter sent resources
 - You can export a student's quiz history from the student profile page
 - New resources have been added to the library

- For Students
 - There is now a shapes and straight line tool in the scratchpad
 - When reaching the end of a self-guided quiz, answers can be reviewed and changed
 - Students can sort and filter their resources
 - The student profile has been enhanced, student interests and preferred learning styles can now be added.
 - When on a quiz results screen there will now be a new link that takes you to resources or back to quizzes
 - The font size for answers has been bumped up
